SUMMARY

Detail-oriented MCA student with a strong foundation in software development, problem-solving, and design. Hands-on experience in developing full-stack and web-based applications using Java, SQL, React, and related technologies. Solid understanding of OOP, DBMS, and data structures with the ability to analyze requirements, learn new technologies quickly, and contribute effectively in a collaborative development environment.

EDUCATION

MIT World Peace University

MCA Science - Pursuing

2024 – 2026

Pune, India

UKA Tarsadia University

B.Sc (Information Technology) - CGPA - 8.19

2021 – 2024

Bardoli, India

PROJECTS

AI Chatbot using DeepSeek | *React, Azure, DeepSeek v3 API*

2025

- Built and deployed a scalable, GPT-like AI chatbot on Microsoft Azure App Services using DeepSeek v3 API and React frontend.
- Achieved an average response latency of under 800ms, enabling a seamless real-time conversational experience for users.
- Engineered a scalable architecture ensuring consistent performance during traffic spikes and supporting future feature integrations.

Online Movie Booking Platform | *Java Servlets, MySQL, HTML, CSS, JS, Bootstrap*

2024

- Developed a full-stack movie ticket booking platform using Java Servlets, capable of handling 500+ concurrent user sessions during peak hours.
- Designed and Implemented a real-time seat locking mechanism that prevented double booking, achieving 99.9% booking accuracy in tests.
- Created a dynamic admin panel for show management, allowing for instantaneous updates to movie schedules and seat availability.

No Broker Management System | *PHP, MySQL, HTML, CSS, JS*

2023

- Engineered a full-stack real estate platform using PHP and MySQL, eliminating intermediaries and reducing listing costs for owners by an estimated 100%.
- Implemented a secure, real-time chat and alert system, improving owner-tenant response time by 40% compared to traditional methods.
- Developed distinct, role-based modules for Owners, Tenants and Admins, ensuring data security and a streamlined user experience.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3, Bootstrap

Backend: Java, Java Servlets, Python, PHP, REST API concepts(Learning FastAPI)

Databases: MySQL, SQL

Tools: Git, GitHub, VS Code, Linux, Azure

Core Concepts: OOP, DBMS, DSA, Operating Systems

EXTRACURRICULAR

HACK MIT-WPU 2025 - Ideathon

March 2025

Participant

Pune, India

- Collaborated to design "AccessAbility," an adaptive AI assistant concept for accessibility.
- Contributed to the technical architecture proposal using assistive AI technologies.

CERTIFICATIONS

- SQL (Advanced) - HackerRank
- Python Fundamentals - Great Learning

- Java - HackerRank
- Full Stack Web Development - Coursera
